 Gratitude, Appreciation
 and Kindness can
 Transform Your World

 Increase your Happiness & Well-Being

The Parts of a Friend

Eyes. The only way to know if someone is a friend is to look into their eyes. If they are looking at you, they are listening to you. If they are looking away, they are not listening to you.

A good memory. A good memory is remembering all of the good things that your friend has done for you.

A mouth. A mouth is used for talking, laughing, and smiling. A friend should be able to talk to you, laugh with you, and smile at you.

Help. A friend is someone who will help you when you are in trouble. A friend is someone who will be there for you when you need them.

A heart. A heart is the center of a person. A friend should have a heart that is full of love and kindness. A friend should be able to love you and be kind to you.
